Mounting Points For "Small" AVN-DIO

The mounting points in Fig 1-1 allow you to mount up to five "small" AVN-DIO units, either front or rear facing. Use the M3 x 8mm countersink screws and the M3 flanged nuts, as provided.

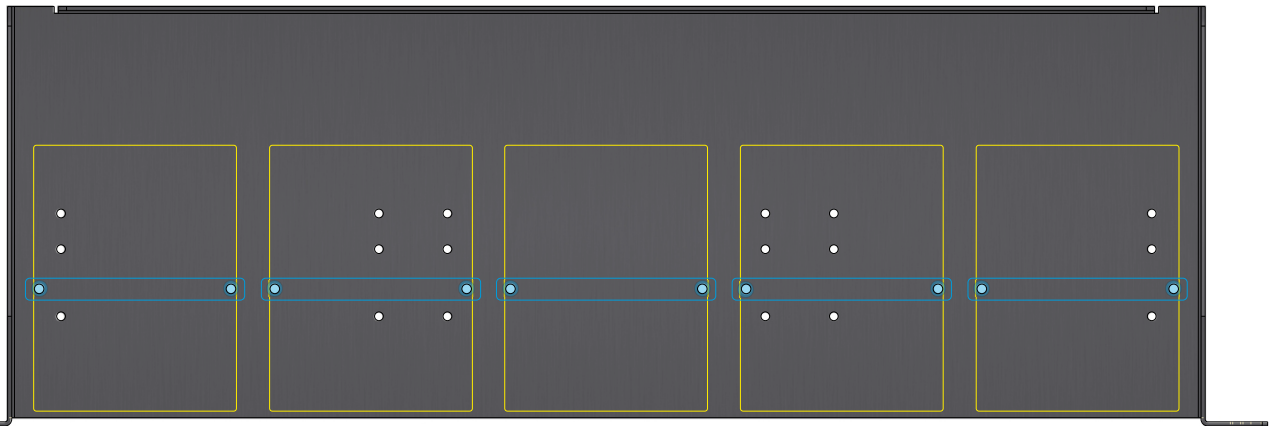

Fig 1-1: Small AVN-DIO mounting points.

Mounting Points For "Wide" AVN-DIO

The mounting points in Fig 1-2 allow you to mount up to three "wide" AVN-DIO units, either front or rear facing, dependent on the mounting points as detailed. This is done by removing the 2 x M3 countersink screws on the bottom of the AVN-DIO unit and replacing them with 2 x 8mm long M3 screws, mounting through the rack kit into the original mounting holes on the unit.

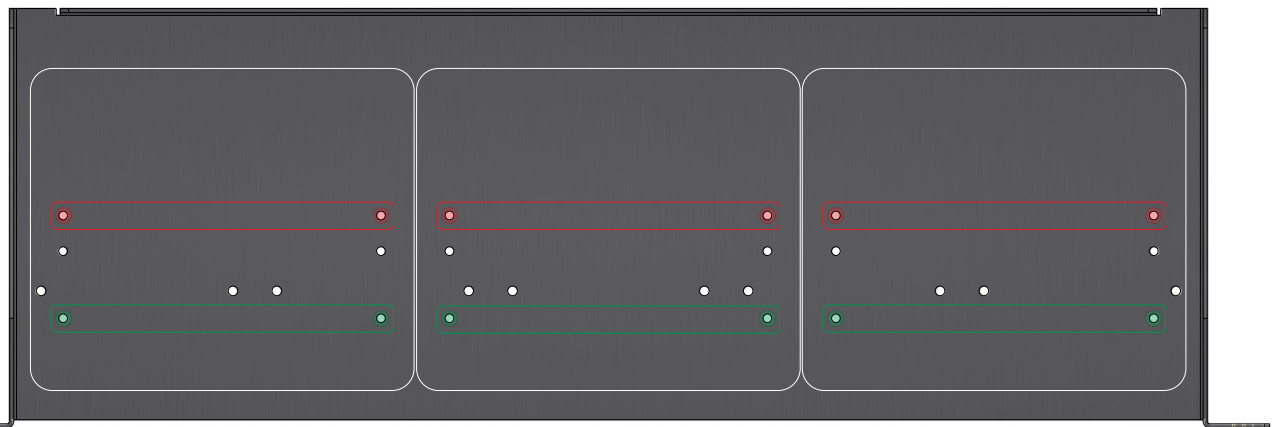

Fig 1-2: Wide AVN-DIO rear facing mounting points. Wide AVN-DIO front facing mounting points.
